# REMOTE CONTROL & PAIRING GUIDE

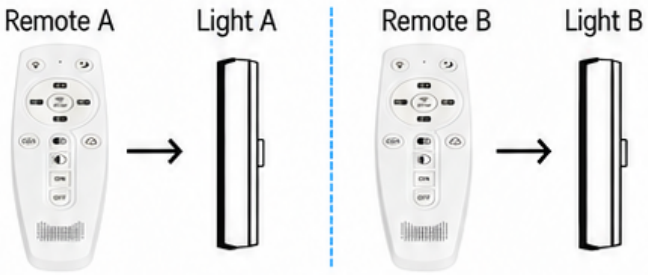

## FACTORY PRE-PAIRED

2-Pack includes 2 remotes. Each light is factory-paired with its matching remote.
For normal 1-to-1 use, no extra pairing is needed.

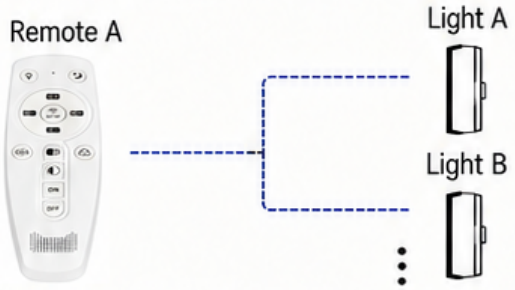

## CHOOSE YOUR CONTROL MODE

### MODE 1 INDEPENDENT CONTROL (Factory Default)

Each remote controls its matched light.

### MODE 2 GROUP CONTROL (1 Remote → 2+ Lights)

To control multiple lights with one remote, follow the pairing steps below.

## REMOTE BUTTON GUIDE

| | |
|---|---|
| ☀ | Increase Brightness |

| ☀+ | Increase Brightness |
| K+ | Color Temperature Up (Cooler Color Temp) |
| K− | Color Temperature Down (Warmer Color Temp) |
| SETUP | SETUP Pairing Key |
| ☀− | Decrease Brightness |
| RGBIN | Not Used (N/A) |
| K | Manual Main Light Color Select |
| R | Not Used (N/A) |
| ◐ | 50% / 100% Brightness Toggle |
| ON | Main Light ON |
| OFF | Main Light OFF |

## PAIRING STEPS FOR 1 REMOTE TO 2+ LIGHTS

1. Power on all target lights.
2. Within 5 seconds, hold SETUP for 5–10 seconds. (5–10s)
3. Lights flash = pairing complete.

**TIP:** If pairing fails, turn the lights off for 10 seconds and try again.
Make sure the remote battery is installed.

0–100% Dimming | 3000K–6000K CCT | Night Light Mode | Memory Function

Reliable Performance • Easy Everyday Use
